MESUEH CHRISTIEN

Full Stack Developer

📞 +237 674430334   @ mesuechristian12@gmail.com   📍 Buea, Cameroon

SUMMARY

Enthusiastic Full-Stack Developer with 2+ years of experience and a successful track record in developing innovative web applications. Proficient in both frontend and backend technologies, including HTML, CSS, JavaScript, React.js, Next.js, PHP, and Laravel. Good at translating UI/UX designs into user-friendly and interactive web interfaces. Quick to learn new technologies , identify and resolve complex code issues. Organized, works well with teams, and focused on producing high-quality work. Seeking a Full-Stack Developer or Frontend Developer role to leverage my comprehensive skill set and contribute to a dynamic team to achieve team goals.

EXPERIENCE

03/2024 - Present

Buea, Cameroon

Software Developer Intern
Tech Chantier

- Collaborated with a team to design and implement a job board application from scratch, connecting students with job opportunities.
- Utilized PHP and Laravel to create robust server-side functionalities, including user registration, authentication, and job posting management.
- Implemented features for creating, reading, updating, and deleting job opportunities.
- Leveraged HTML, CSS, React.js, and Next.js to build intuitive and responsive user interfaces that enhanced user engagement and satisfaction.
- Designed and implemented RESTful APIs using Laravel, ensuring efficient and secure data exchange between the frontend and backend systems.

04/2024 - Present

Buea, Remote

Frontend Developer
Touko Banix

Part-Time

- Worked remotely as a part-time Frontend Developer at Touko Banix contributing to the Ndamba Project.
- Developed and implemented the admin dashboard for Ndamba, featuring functionalities to manage countries, states, regions, towns, and cities.
- Designed and built the landing page, including carousels for premium players, news sections, reels format videos, and a partners/sponsors section.
- Implemented dynamic data-driven components using React.js to ensure the admin dashboard and landing page remained up-to-date and engaging for users.
- Employed modern web technologies such as HTML, CSS, JavaScript, and React.js to create intuitive and interactive user interfaces.
- Collaborated with a cross-functional team to align frontend development with overall project goals and timelines.
- Conducted user experience testing and gathered feedback to continually improve the platform's usability and performance.

02/2024 - 04/2024

Buea, Cameroon

Frontend Developer Mentor
Wicon

- Lead a comprehensive mentorship program for frontend development interns at Wicon, providing video tutorials, comprehensive notes, and personalized support.
- Conducted regular online evaluation sessions to assess interns' progress and understanding of frontend concepts, offering personalized feedback and guidance to address areas for improvement.
- Utilized interactive online sessions to foster engagement and facilitate collaborative learning experiences, allowing interns to ask questions, discuss challenges, and share insights in real-time.
- Fostered collaborative culture among interns, promoting knowledge sharing, peer-to-peer support, and teamwork through group projects and pair programming sessions.

EXPERIENCE

09/2023 - 01/2024

Buea , Cameroon

• Frontend Developer Intern
Loop Technologies

· Worked on the LEAD Frontend project, a real-life food delivery application, as part of a dynamic team.
· Developed the frontend interface according to the Software Requirements Specification (SRS), focusing on user registration, restaurant search, menu browsing, order placement, and tracking functionalities.
· Utilized modern web development frameworks such as React and Next js to build responsive and intuitive user interfaces.
· Actively participated in online evaluation sessions to assess project progress and address any challenges.
· Developed user-friendly web forms with validation and error handling Experienced in abstracting specific styles into components and variables, enhancing code maintainability and scalability. Proficient in HTML, CSS, and JavaScript, with a focus on writing modular, reusable, and responsive code.
· Demonstrated expertise in working with SVGs and leveraging CSS for advanced modifications and animations.
· Left the project upon completion of the contract to pursue further professional development opportunities.
